EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

3. Claims 1-58 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 23, 28, and 48 the primary reason for allowance is that the prior art fails to teach or reasonably suggest selecting a first pixel in a first frame having a given color, locating a second pixel in the second frame have the given color, and aligning the first frame and the second frame based upon the locations of the first and second pixels.

As for claim 14, 22, 39, and 47 the primary reason for allowance is that the prior art fails to teach or reasonably suggest selecting a first and last frame with at least one frame in between, selecting an initial pixel in first frame and a final pixel in the last frame, the initial pixel having a first pixel, the final pixel having a final color, determining an interpolated pixel for each from in between the frames, aligning the initial frame, final frame, and the at least one frame in between, based upon the locations of the initial pixel, final pixel and each interpolated pixel.

With regard to claims 24, 25, 49, and 50 the primary reason for allowance is that the prior art fails to teach or reasonably suggest interpolating between a color of a pixel in a first image and a color of a pixel in a third image to determine a searchable color, identifying a pixel having a color in a second image within a searchable range of the searchable color, repositioning the images such that the pixels from the first, second and third images are aligned.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
